ABOUT ME

I am dedicated to continuous learning and staying updated with the latest advancements in my field, ensuring that I am equipped to tackle complex challenges in an ever-evolving technological landscape. I'm looking forward to using all my latest skills on upcoming challenges and projects.

EXPERIENCE

INDRA SISTEMAS

Madrid

11/2022 - Present

Colaborated in several projects and products such as:

- Autonomous Wireless Networks.
- Europe's Rail IoT projects (ERJU, Shift2Rail).
- Smart Wayside Object Controller.
- IoT Sensorized Sleepers.
- Yocto Embedded Systems

ENDESA

Málaga

10/2021 - 10/2022

- I managed and certified the periodic revisions of the aerial medium voltage networks.

EDUCATION

Electronics, Robotics, and Mechatronics Engineering

Universidad de Málaga - 2021

During this degree, I acquired the necessary skills to solve engineering problems in various areas such as electronics, automation, and programming.

Further Courses

- Developing on AWS (Global Knowledge)
- Machine Learning on Python (CEINPRO)
- Clean Code (Udemy Business)
- Django (Udemy Business)
