ABOUT ME

I am dedicated to continuous learning and staying updated with the latest advancements in my field, ensuring that I am equipped to tackle complex challenges in an ever-evolving technological landscape. I'm looking forward to using all my lastest skills on upcoming challenges and projects.

EXPERIENCE

INDRA SISTEMAS   11/2022 - Present
Madrid

- Developed new offer solutions with the innovation's Software Department using C++, Python and Django (managing templates, database and administration).
- Deployed solutions on remote machines.
- Designed and implemented database models.
- Refactored code to make it cleaner, scalable and esier to maintain.

ENDESA   10/2021 - 10/2022
Málaga

- I managed and certified the periodic revisions of the aerial medium voltage networks.
- Earned basic team working skills.

EDUCATION

Electronics, Robotics, and Mechatronics Engineering
Universidad de Málaga - 2021

During this degree, I acquired the necessary skills to solve engineering problems in various areas such as electronics, automation, and programming.

Further Courses

- Developing on AWS (Global Knowledge)
- Machine Learning on Python (CEINPRO)
- Clean Code (Udemy Business)
- Django (Udemy Business)
